University of Padova

TC APE
Asphalt Pavements & Environment

11th - 13th SEPTEMBER PADOVA

ITALY 2019

5TH APE SYMPOSIUM
ISAP
2019 Padova ITALY

ISAP (International Society for Asphalt Pavement) is one of the most prestigious international organizations to promote asphalt pavement technologies. The Technical Committee on Asphalt Pavements and Environment (APE) is one of the TCs in ISAP and hosts the 5th ISAP APE Symposium 2019, together with the University of Padova (Italy).

The APE Symposium has already been organized four times, in: Zurich, Switzerland (2008); Fortaleza, Brazil (2012); Sun City, South Africa (2015); Tokyo, Japan (2017). The 5th Symposium will be held in Padova (Padova, Italy).

The Symposium 2019 will provide an excellent chance to share and disseminate research experiences concerning materials and technologies for asphalt pavements, conceived with sustainability purposes and environmental compatibility.

5th International Symposium on Asphalt Pavements & Environment (APE)

5th ISAP TC APE Symposium

11th - 13th SEPTEMBER PADOVA

ITALY 2019

Topics are focused on the environmental aspects of asphalt pavements and are related, but not limited, to:

1. Sustainable pavement materials
2. Marginal materials in asphalt pavements
3. Pavement structures
4. Test methods and performance
5. Hot, warm or cold recycling
6. Maintenance and management methods
7. Environmentally friendly technologies
8. Urban heat island mitigation
9. Energy harvesting
10. Life cycle assessment
